

NASHWAAK VALLEY WOOD ENERGY

(THE PELLETT PLANT)

NOW BUYING (Payment through YSC Board)

Effective September 8, 2009, NVWE will be purchasing softwood roundwood for the pellet plant to be delivered to their facility on the GlenCoe Road at Lower Portage. Unloading services will be available Mondays and Tuesdays, whereas self-loaders may deliver during regular hours, Monday to Friday (7am – 5pm). Please call 461-8909 prior to deliveries on Wednesday to Friday to ensure somebody is available to weigh trucks.

Specifications:

Length: 8' to 18' Minimum top size: 3" Maximum butt size: 18"

Oversize pieces, excessively rotten, punky or crooked stems will be returned on the truck.

Prices:

3 Grades:

Grade 1:	Spruce, Fir and Pine	\$36/tonne.
Grade 2:	Mixed Softwood (all softwood species except cedar)	\$34/tonne
Grade 3:	Hemlock and tamarack	\$32/tonne

Original shareholders have until the end of this week to buy shares at the current price of \$225. The offer is open to any new shareholders after this week but the new price will be \$250. For anybody who purchases at least \$1000 worth of shares they will be eligible for the NB Small Business Investor Tax Credit which is a direct 30% tax credit on their provincial income tax. The maximum amount that any one person can own in the company is 5%. If anybody has any further questions about the share structure or how to go about purchasing shares please pass along my contact information.

Cheers
